SKILLS

- **Languages:** Python, C, C++, Java
- **Frameworks:** HTML and CSS, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- **Tools/Platforms:** MySQL, Power BI, Microsoft Excel, VS Code, Jupyter Notebook
- **Soft Skills:** Adaptability, Leadership, Quick Learner, Continuous Learning

PROJECTS

- Speech Emotion Recognition | [GitHub](#)**

Feb'2025 – Apr'2025

 - Curated audio data via Free-sound API to engineer an 89% accurate CNN-based Emotion Recognition system.
 - Benchmarked CNN against SVM and Random Forest, significantly outperforming the 41% baseline of shallow models.
 - Implemented data augmentation to boost accuracy from 38% to 89% and deployed the model for real-time inference.
- Spam Mail Prediction Model (Machine Learning Classification System) | [GitHub](#)**

Jul'2025 – Aug'2025

 - Built an early-spam detection system using machine learning to support preventive risk.
 - Used Python for preprocessing, feature selection, and Logistic Regression as the primary training model, evaluated using accuracy and classification metrics.
 - Produced a functional prediction model demonstrating real-world potential in supporting spam decision-making and risk analysis.
- Pollution Analysis CO2 (Exploratory Data Insights) | [GitHub](#)**

Apr'2025 – May'2025

 - Analyze global Carbon di Oxide levels, trends, demographics, and fatality factors using data-driven insights.
 - Built using Python with Pandas, NumPy, Seaborn, and Matplotlib for data cleaning, preprocessing, visualization, and statistical analysis.
 - Extracted insights identifying high-risk regions, temporal trends, fatality causes, and demographic impacts useful for environment safety and research.

TRAINING

- Advance Python for ML & AI | CSE Pathshala | [Certificate](#)**

Jun'2025 – Jul'2025

 - Acquired Advance Python concepts including NumPy, Pandas, Matplotlib, Scikit-learn, Data Preprocessing, model training, feature engineering and Evaluation Techniques.
 - Developed an **Email Spam Detection** Prediction Model using Machine Learning Classification technique.
 - Implemented the project by performing Data Preprocessing, Feature engineering, applying Logistic Regression and evaluated model performance with accuracy score.

CERTIFICATES

- Advanced Python for ML & AI | CSE Pathshala | [Link](#)

Aug'2025
- Privacy and Security in Online Social Media | NPTEL | [Link](#)

Apr'2025
- RCS Capture the Flag (RCSCTF24) | Encrypt Edge | [Link](#)

Mar'2024

ACHIEVEMENTS

- **Selected for Achievers Award (University Level):**

Dec'2025

For strong academia foundation and results.
- **One among Dean's top 10% students at University:**

Nov'2025

For good academic performance and extra-curricular activities at university.
- **Participated in Republic of Cyber Sentinels CTF Hackathon (24 Hour)**

Jan'2024

Gained Hands-on Cyber security experience by solving real-time challenges
- **Met Hon'ble Ex President Mr. Pranab Mukharjee by Scout Camp**

Nov'2017

Gained hands-on survival Skills and chance to meet with president

EDUCATION

- **Lovely Profession University**

Punjab, India

Bachelor of Technology – Computer Science and Engineering: **CGPA: 9.16**

August 2023 - Present
- **Green Field Modern Inter College**

Uttar Pradesh, India

Intermediate: **Percentage: 81%**

April 2022 – March 2023
- **Green Field Modern Inter College**

Uttar Pradesh, India

Matriculation: **Percentage: 83%**

April 2020 – March 2021
